Burning Gasoline, Autumn Scenery, Lake and Mountain Region.

R. F. Seavey and wife of the Beals Tavern and N. R. Merrill and wife of the Elm House made a flying visit over a good deal of territory the past week. They intended visiting Archie Cole of the Mingo Spring House, Rangely. They reached Upper Dam House, a half-hour too late Saturday to connect with the boat on the Big Lake and as no small motor boats could be got they concluded to return to South Arm in Mr. Roberts' boat. The engine in this boat soon went on a strike and they returned to Upper Dam and stopped over night.

The following day they returned to South Arm, thence with Mr. Merrill's auto went to Andover, over B Hill to Upton, Grafton, Lakeside, Errol, N. H., through Dixville Notch, Colebrook and stopped over night at the Eagle House, Groveton.

THE NORWAY ADVERTISER

(OXFORD COUNTY, ME.)

See to Your Fire Risks.

The recent fire is another reminder that it is well to look to fire prevention. For the sake of your own property and that of your neighbor, see to it that all fire engines are cleaned out. See that all chimneys are cleaned out. If there is not an opening at the bottom for cleaning out the soot have a mason put one in. See that no holes are worn through the funnel. See that the funnel does not come in contact with anything inflammable. See that all waste that might catch fire is removed from near the stoves and furnaces. Before leaving a fire for the night see that all drafts are as they should be. Don't say, "Oh, that's all right." See to it that it is all right. If you should wake up some night to smell the house full of smoke and hear the crackling of the flames, you will wish you had attended to these things.

A few minutes of care at the proper time is better than five streams of water, under 70 pounds pressure.

The country newspaper is the most useful and least compensated of all the agencies which stamp the impress of progress upon village and inland life. Without the aid of a local newspaper, towns are, as a rule, shiftless and dead. It is common with small, great men to speak with contempt of the local newspapers, but the village newspaper makes more great men out of less materials, more bricks without straw, than any other factor in politics, and it is the one ladder up which men climb to local distinction as the beginning of wider fame. Sometimes they of wider fame forget the local paper that gave them the start.

The advent of the local newspaper has always increased the thrift of the community. The local paper is the life of the locality, and measures the advancement of the people. Not only subscribe but pay for your local newspapers. They are the friends and helpmates of all seasons.

BETHEL.

Middle Intervale.
Rev. E. A. Davis of Lewiston, formerly pastor of South Paris Baptist church, has been here recently doing missionary work. He preached two sermons here and at East Bethel last Sabbath.

The hills and surrounding country are robed in autumnal beauty now. Many early apples have been shipped to Berlin by farmers here and vicinity. Blanche E. Kimball went to church Sunday afternoon at East Bethel. Our visitors have returned to their homes, one our sister, Mrs. Coffin, to her home in Colorado, where she went ten years ago to be cured of consumption and she is now a well woman. Her husband, Dr. Coffin, died about one year ago. The climate did not agree with him. He was a brave, heroic man and for his wife's sake, braved the climate and worked until nearly the last day of his life and died at the age of 83 years.

Mrs. Jennie P. Coffin of Colorado recently visited her brother, Dr. F. E. Packard, of West Paris. Her brother, James B. Packard, visited her while there. She then visited relatives in Bethel, called on her brother in Portland, then went to Exeter, N. H., to visit her sister and brother, Mr. and Mrs. F. E. Osgood. She is now returning to her home in Denver. Her son Frank is lately married.

ALBANY.

Splendid weather and everybody is digging potatoes and picking apples. Guy D. Cummings has just returned from his early apples that he shipped to Boston. He got more for them than he expected. He has two carloads of winter apples already picked, and some to pick yet.

Dry weather, probably will get ready to rain about Friday or Saturday when the World's Fair comes off at North Waterford.

Lucian Andrews has been to work for George Cummings on his barn.

Songo Road.

C. F. Upton is now picking apples for Merton Wyman of Norway Center. In three days he picked 113 barrels of apples and carried some of the barrels and helped load them. He says, he is going to pick 60 barrels in one day next week.

W. J. Upton of Bethel has bought quite a lot of shore privilege at Songo recently.

W. B. Baker and wife were at C. F. Upton's, Sunday. He has bought a horse and wagon of Carl Brown of Norway Center.

Mrs. Etta Baker and Mrs. Carl Upton and daughter Violet called at C. F. Becker's recently.

PURE BLOOD MAKES HEALTHY PEOPLE

Hood's Sarsaparilla surely and effectively removes scrofula, boils and other blood diseases because it drives out of the blood all the humors that cause these diseases. They cannot be successfully treated in any other way. External applications for their removal have proven almost useless, because they cannot drive out the impurities that are in the blood.

Hood's Sarsaparilla makes pure rich blood, perfects the digestion, and builds up the whole system. The skin becomes smooth, clean and healthy. This great blood remedy has stood the test of forty years. Insist on having Hood's, for nothing else acts like it. There is no real substitute. Get it today. Sold by all druggists.

GILEAD.

\$930,000 Per Week Paid For Hudson Car

\$235,600 in one Day By individual Buyers

The day before this is written—September 15—the sales made to
users on the HUDSON Six-40 were 152 cars. That is, yesterday buyers of
new cars paid out for HUDSONS \$235,600.

The average for the past four weeks is \$930,000 per week—because that
is the limit of output. We are building and selling 100 per day. That is
five times as many—FIVE TIMES, MARK YOU—as we sold at this season
last year.

And we had no war then—no talk of war's depression. Our average
sales have more than trebled since this war began.

That Means that Hudsons Rule This Field Today

In July—when we brought out this new model—we trebled our output
to cope with demand. Yet on August 1—despite our best efforts—we were
4,000 cars oversold.

We shipped BY EXPRESS nearly 1,000 cars to minimize delays. That's
an unprecedented act. But thousands of men waited weeks for this car,
when every rival had cars in plenty. Nothing else could satisfy a man who
once saw this new-model HUDSON Six 40.

Five-Fold Increase an Amazing Thing

Consider this fact: The HUDSON has long been a leading car. Every
model has for years been designed by Howard E. Coffin.

In the HUDSON car Mr. Coffin has
brought out all his new advances. And
the demand for his models—long before
the advent of this HUDSON Six-40—
gave HUDSONS the lead in this
field. The first HUDSON Six, inside of
one year, became the largest-selling Six
in the world.

PORTLAND, BANGOR, AUGUSTA. SUMMER SCHOOL AT SOUTH OASCO.

Think what a car this must be—this new HUDSON Six-40—to multi-
ply that popularity by five in one year. And to do it at a time like this.
Think how far it must outrank all the cars that compete with it. Think
what tremendous appeal it must make to car buyers.

Think what a car it must be when, in times of slow sales, men pay
\$930,000 per week for it. And they would pay more if we had the cars to
deliver. They yesterday bought at the rate of 50 per cent. more cars
because 152 cars arrived.

The Hudson Six-40 now far outsells any
other car in the world with a price above
\$1,200.

See the Car That Did It Howard E. Coffin's Best

Come now and see this model—the car whose record is unapproached in the
annals of this line. You will see a quality car sold at a price which is winning
men by the thousands from lower grade cars. **B.T.E. 7.7.9**

You will see a class car—in many respects the finest car of the day—which
is sold at one-third what class cars used to cost.

You will see how clever designing and costly materials have saved about
1,000 pounds in weight. And in this light car—the lightest of its size—you will
see one of the sturdiest cars ever built. You will see a new-type motor which
has cut down operative cost about 30 per cent.

You will see new beauties, new ideas in equipment. You will see new
comforts, new conveniences—scores of attractions you have never seen before.

They are all in this masterpiece of Howard E. Coffin, who has long been the
leading American designer. This is his finished ideal of a car—of the man who
is conceded to be final authority.

Mr. Coffin has worked for four years on this model. And the whole HUDSON
corps has worked with him—47 able engineers. Part by part, every detail of this
car has been brought to its final refinement.

This is the coming type. This lightness, this beauty, this economy, this price
are new day standards which men are demanding. And this quality—Howard E.
Coffin's level best—is the least that men who know will take.

Come this Week—Sure Now's the Time to Choose

This is the time to pick out your new car. Next year's models are out now.
You have seen what the field has to offer.

If you buy a class car, this new HUDSON Six-40 is the car you'll want. The
exclusive features which have won such an avalanche of favor are bound to appeal
to you.

Come now, because the best touring months are before you. Don't miss the
bright, cool Indian Summer days. Get your new car and enjoy them.

We don't keep you waiting. We will see that you get the car when you want
it if we have to ship by express.

toe. Quit punishing your feet by using toe-eating salves and ointments. To use "GETS-IT," use scissors and razors, slicing and hacking at a corn, only make it grow faster and bigger. It also brings danger of bleeding and blood poisoning. The new way, the new principle never known before in corn-history, is "GETS-IT." It's a liquid—2 drops on a corn does the work. Pain goes, the corn begins to shrivel and out it comes! You apply it in two seconds. Nothing to stick, nothing to hurt, and it never falls. Try "GETS-IT" tonight on corns, calluses, warts or bunions. "GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Wait Paint.

There are painters and waiters. Which am I going to do? Paint or wait? Which is better?

How much am I worth with my property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs \$2 a gallon Devco—I wouldn't paint any other—and \$3 or \$4 more for putting it on. That's \$50 or \$60 a 10-gallon job.

The money is gone. Is it in the house? Is it all in the house?

Suppose I was selling; what should I get for that house fresh-painted and what should I get for it needing-paint?

I wonder why men paint before selling!

DEVCO

F. P. Stone sells it.

"GETS-IT," 2 Drops, Corn Vanishes!

The Only Sure Ender of All Corns.

This is the Grip of the Happy Cornless Footnote of "GETS-IT."

toe. Quit punishing your feet by using toe-eating salves and ointments. To use knives, files, scissors and razors, slicing and hacking at a corn, only make it grow faster and bigger. It also brings danger of bleeding and blood poison. The new way, the new principle never known before in corn-history, is "GETS-IT." It's a liquid—2 drops on a corn does the work. Pain goes, the corn begins to shrivel and out it comes! You apply it in two seconds. Nothing to stick, nothing to hurt and it never fails. Try "GETS-IT" tonight on corns, calluses, warts or bunions.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence & Co., Chicago.

Wait Paint.

There are painters and waiters. Which am I going to do? Paint or wait? Which is better?

How much am I worth with my property waiting? How much if I paint? Will my house be worth more or less if I paint?

Say it costs \$2 a gallon Devoe—I wouldn't paint any other—and \$3 or \$4 more for putting it on. That's \$50 or \$60 a 10-gallon job.

The money is gone. Is it in the house? Is it all in the house?

Suppose I were selling; what should I get for that house fresh-painted and what should I get for it needing-paint? I wonder why men paint before selling!

A Good Time to Change

If you have been using a mixture of cream of tartar and soda for quick baking you will find it profitable, because of the increasingly high price of cream of tartar, to use Royal Baking Powder instead.

It will pay you to do this because the price of Royal, which is made from highly refined cream of tartar, has not been changed, and because you will find it in every way more satisfactory than the use of home-made mixtures to which you have been accustomed. Royal Baking Powder is famous for its absolute purity and its reliability as a quick raising agent.

About four o'clock he had filled his cart and had climbed up to drive to the barn when he was stricken and fell to the ground.
